EDUCATION

Bachelor's in Computer Science   **2020 – 2024**
Islamia College, Peshawar, Pakistan   *CGPA: 3.38 / 4.0*

PROJECTS

- **E-Pass Transfer:** Built for Mira Elektronikentwicklung using React.js, Tailwind CSS (frontend), and Django (backend). Includes OTP-based email registration, OTP verification page, license key download section, monthly usage view, PDF invoices, and payment integration (credit card and SEPA).

- **POS System – Iwiz Solutions:** Developed using MERN Stack + Tailwind CSS. Features: admin dashboard with total sales, profit, daily summary, barcode scanning, sales receipts (IoT), role-based access, discounts, returns, inventory, and expense management. Deployed to Vercel (frontend) and Render (backend).

- **Gym Trainer Website:** Built with Next.js + Tailwind CSS. Admin can schedule/edit/delete classes. Normal users can only view their schedule. Email functionality integrated.

- **Passbild Express Testing Website:** React + Tailwind app to upload multiple images, get pass/fail results, show test percentages and failure charts. Supports webcam upload.

- **Sleep Tracking System:** Captures real-time HR/O2 data via ring sensor and Raspberry Pi. WiFi auto-configuration portal via Express.js backend. Data stored in Firestore. Integrated SHT-85 oxygen sensor.

- **Static Websites:** Innoit (Next.js + Tailwind + cPanel + email), Iwiz Solutions (Next.js), and others.

- **Live Demos:** Portfolio, Landing Page, Food E-commerce, Donation Site, Social Media UI, Blog Site.

- **Comfora.pk Shopify Store:** Fully functional e-commerce store with cash on delivery, real-time inventory sync, mobile optimization. comfora.pk

- **Other Projects:** Weather App, Calculator, Quran Play (React-based recitation player)

PROGRAMMING SKILLS

- **Languages:** HTML, CSS, JavaScript, Java, C++
- **Frameworks/Libraries:** Bootstrap, Tailwind CSS, React.js, Next.js, Node.js
- **Tools:** Figma, Postman, Netlify, Vercel, cPanel

CERTIFICATES

- Prime Minister Laptop Awardee
